

FRIENDS of LAKE SHANNON: August 12, 2014

Because Lake Shannon is such an extraordinary place to live, and in an effort to keep our dues low, this new committee has been formed to enhance the natural beauty and functionality of our community, through volunteer activities and donations. Currently, Rita Long-Huizenga, Dana Blasko and Kim Katch are on this committee.

- This committee reports to **Randy Andreen**, the new Roads/Parks/Islands & Mosquito Control Board Member. We met to discuss ***both short and long-term projects***, as well as possible fund-raising events to fund new improvements and enhancements. Friends of Lake Shannon is not affiliated with the Sportsmen's Club, and we include men, women and children.
- To date ***\$200 has been donated***, and a ***short-term goal*** of getting ***picnic tables*** on the Twin Islands is being considered as a first step to enhancing and improving the quality of our recreation areas. This is a good place to begin. Other suggestions???
- We are looking for ***creative ideas, donations of time and physical help, and money donations.***
- ***Please consider when and how you can contribute.*** We realize that some folks will be able to give their ideas, while others can offer physical help and volunteer with the whole family. Some want to donate cash, and are considering including Friends of Lake Shannon in their estate planning. Any level of support is welcome and appreciated. We are establishing ***The Shamrock Club*** to thank and acknowledge all contributors. More to follow on that.
- **IF YOU WANT TO HELP, PLEASE COMPLETE & RETURN TO:** Rita Long-Huizenga at ritalong33@gmail.com or 7262 Driftwood Drive or 810-625-1703.
Thanks for your consideration and call with questions or information.
Information is also available on the Lake Shannon Website.
