## *Construction Advisory*

### **Lake Shannon Area Pavement Rehabilitation**

The following project is expected to be underway soon. As always, weather adversities, changes in contractor's schedules, or other factors could alter the timing described in this advisory. The Livingston County Road Commission will issue revised advisories for those projects with high traffic impacts.

- Township: Tyrone and Deerfield Townships
- Project: Lake Shannon Community
- Starting Date: Tuesday, July 24, 2018
- Completion Date: Operations will be intermittent based on contractor availability
- Project Purpose: Pavement rehabilitation
- Nature of Work: Mill existing surface and replace with 2 new lifts of hot mix asphalt
- Traffic Impact: Milling begins Tuesday, July 24 at Parkwood and Linden Road and will proceed counterclockwise around the lake. Multi milling and paving operations will occur at the same time. One lift of asphalt will initially be placed, followed by an overlay of the entire project limits. Driveways will be ramped with aggregate after the milling operation.

In order to main safety for crews and motorists, traffic will be directed to go in one direction during operations. Flaggers will assist where possible. Traffic should go the same direction the trucks are going.

There will be delays. Plan for extra time, even when leaving your driveway.

In order to protect your investment, please make sure the sprinklers that will reach the roadway are turned off.
